

SECOND ALPHABETICAL LIST OF THE LICHENS COLLECTED IN SEVERAL COUNTIES OF NORTHERN OHIO.

EDO CLAASSEN.

Since June 1912, when the first list was published in the Ohio Naturalist, 23 lichen species, not yet listed, have been collected. The name of the counties, where the collections were made, are again abbreviated as before: C stands for Cuyahoga, E for Erie, G for Geauga, L for Lake, O for Ottawa, S for Summit and St for Stark.

Several of these lichens, such as *Arthopyrenia macrospora*, *Arthopyrenia quinquesepata*, *Bilimbia trachona*, *Lecanora tartarea*, *Lecidea myriocarpoides* and *Lecidea pycnocarpa*, seem to be quite rare. It is hoped and expected, that in coming years some more species can be added, mainly by excursions to localities not as easily accessible as those which usually have been visited, for instance the islands of Lake Erie.

List of Lichens:

- Acarospora cervina fuscata* (Schr.) Fink. On sandstone: C.
Amphiloma lanuginosum, (Hoffm.) Nyl. On base of tree: C, on rock: C, L.
Arthopyrenia macrospora Fink. On bark (maple): C.
Arthopyrenia punctiformis fallax (Nyl.) Fink. On bark (poplar): C.
Arthopyrenia quinquesepata (Nyl.) Fink. On bark (ash, maple): O.
Bacidia endoleuca (Nyl.) Kukx. On bark (sycamore): C.
Bacidia inundata (Fr.) Koerb. On sandstone: C.
Biatorella moriformis (Ach.) Th. Fr. On dry and rotten wood: C, St.
Bilimbia trachona Flot. On limestone: O, on sandstone: C.
Buellia myriocarpa (Lam. and D. C.) Mudd. On rotten wood: C.
Buellia spuria (Schaer.) Arn. On sandstone: C.
Cladonia delicata (Ach.) Floerke. On rotten wood: C, E, G, S.
Cladonia macilenta Hoffm. On rotten wood: C.
Lecanora dispersa (Pers.) Floerke. On old bark: E.
Lecanora subfusca campestris Schaer. On sandstone: C.
Lecanora tartarea (L.) Ach. On rock: G, L.

Lecidea contigua convextella (Wainio) Fink. On granite boulder: C.

Lecidea lactea (Flot.) Schaer. On sandstone: C.

Lecidea myriocarpoides Nyl. On old wood: L.

Lecidea pycnocarpa Koerb. On rock (conglomerate): G, L.

Placodium pyraceum (Ach.) Fink. On old wood and sandstone: C.

Rhizocarpon alboatrum (Hoffm.) Th. Fr. On bark (maple): O.

Theloschistes polycarpus (Hoffm.) Tuck. On bark: C.

OHIO ACADEMY OF SCIENCE

Annual Meeting

At a meeting of the Executive Committee, held in Columbus on December 8th, it was decided to hold the next Annual Meeting of the Academy in Columbus, May 30 and 31, 1918. The usual detailed notice will be issued later.

Saturday, June 1, will be available for field trips for such of the sections as may desire to hold them, the late date being unusually adapted to this purpose.

A more prominent place on the program will be given to the exhibition of specimens, microscopic preparations, drawings, models, scientific apparatus, etc., than at previous meetings. It is expected that definite hours will be assigned for such demonstrations, when the exhibitors will be present to give any desired explanations.

EDWARD L. RICE, *Secretary*.

Date of Publication, December 31, 1917.
